

A Word to Doctors

We have the highest regard for the medical profession. Our preparations are not sold for the purpose of antagonizing them, but rather as an aid. We lay it down as an established truth that internal remedies are positively injurious to expectant mothers. The distress and discomforts experienced during the months preceding childbirth can be alleviated only by external treatment—by applying a liniment that softens and relaxes the over-strained muscles. We make and sell such a liniment, combining the ingredients in a manner hitherto unknown, and call it

Mother's Friend

We know that in thousands of cases it has proved more than a blessing to expectant mothers. It overcomes morning sickness. It relieves the sense of tightness. Headaches cease, and danger from Swollen, Hard and Rising Breasts is avoided. Labor itself is shortened and shorn of most of the pain. We know that many doctors recommend it, and we know that multitudes of women go to the drug stores and buy it because they are sure their physicians have no objections. We ask a trial—just a fair test. There is no possible chance of injury being the result, because **Mother's Friend** is scientifically compounded. It is sold at \$1 a bottle, and should be used during most of the period of gestation, although great relief is experienced if used only a short time before childbirth. Send for our illustrated book about Mother's Friend.

Little Pimples Turn to Cancer.

Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded Cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant Cancer.

"I had a severe Cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several able physicians, but in spite of their efforts the Cancer spread until my condition became alarming. After many months of treatment and growing steadily worse, I decided to try S. S. S., which was so strongly recommended. The first bottle produced an improvement. I continued the medicine, and in four months the last little scab dropped off. Ten years have elapsed, and not a sign of the disease has returned."

It is dangerous to experiment with Cancer. The disease is beyond the skill of physicians. S. S. S. is the only cure, because it is the only remedy which goes deep enough to reach Cancer.

S.S.S. For Blood

(Swift's Specific) is the only blood remedy guaranteed Purely Vegetable. All others contain potash and mercury, the most dangerous of minerals. Books on Cancer and blood diseases mailed free by Swift Specific Company, Atlanta, Georgia.

SCINTILLATIONS.

An Interesting Jumble Of News And Comment.

The two year old son of Mr. and Mrs. J. T. Christian, of Lexington, was burned to death Tuesday night by his clothing catching fire from the grate.

While watching for the meteoric shower on the 15th Thos. Collins, of Burgin, saw a shooting star fall near his house. Next morning he found the spot where it fell and after digging a depth of three feet he unearthed a large, copper-colored stone which was still hot.

A passenger train and a freight on the L. & N., collided near Brimfield Station, fourteen miles from Danville. Chas. Keslin, a brakeman, lost both legs, and James Blandford, a fireman, a leg. None of the passengers were seriously hurt.

The Louisville Election Commissioners yesterday decided to count the Louisville vote, and rejected the motion to throw out the city's vote at late election.

The Restaurant Glass.

"Give me a glass of water, please."

The request was made to a waiter behind the marble top lunch counter of a well known restaurant in the central part of the city.

"All right, sir," was the waiter's reply. "I will just as soon as you put your glass down."

The man looked first at the empty glass he held in his hand and then at the waiter. Then his choler began to rise at what he considered an unwarranted piece of impertinence. The waiter evidently saw the outburst of wrath that was coming.

"No offense meant, sir," he hastily explained. "You see, it's just this way: The first thing a waiter learns, and he learns it by dearly bought experience, too, is never to take a glass from another person's hand. Why? Because if he does the chances are about even that the glass will fall and be smashed in the transfer. This is particularly true if the top of the table or counter happens to be of marble, as this one is. You probably understand that when a waiter breaks anything in a hotel or restaurant he has to pay for it, and you probably now understand why it was that I would fill your glass as soon as you put it down so that I could pick it up myself."—Philadelphia Inquirer.

Gastronomic Anarchy.

They say the art of cooking is dying out in France. Cooks and public agree in this, but they charge each other with the cause.

"The French public is degenerate," say the cooks. "It no longer knows a good sauce from a bad one."

"Qu'est-ce que vous voulez?" retorts the public. "The cooks may still be artists, but they are no longer cooks."

"If you want the matter demonstrated," says a Parisian who may be considered to represent the public, "look at the so called culinary exhibitions given in Paris every year. These exhibitions do not ask the judgment of the palate. They ask you to criticize Swiss chalets made in butter and Louis XV furniture made in cake. They wish to imitate the salon, and they show lard sculpture sentimentally disposed in palm bowers and canvases, with foregrounds of string beans, and sunsets of tomato catchup. It is the last word in impressionism, if you like, but it is not cooking—it is anarchy."—Sketch.

Birds That Fight Eagles.

In Foula, one of the Shetland islands, the natives make a business of rearing skau gulls in order to rid the island of the eagles that congregate there and commit many depredations. The magnificent red sandstone cliffs that skirt the northwestern coast became a favorite haunt of the eagles, and in this inaccessible spot they increased so rapidly that they became a terror to the farmers and fishermen who dwell on this isolated spot. The skau gulls are also strong and fierce and the inveterate foe of the eagle. In battle the gulls are nearly always victorious, and so the inhabitants of Foula hit upon the novel plan of feeding and caring for the skau gulls, which, though formidable to their feathered enemies, are very peaceful and docile when brought in contact with man.

August Flower.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at J. A. Wilson's. Sold by dealers in all civilized countries. oct-27-ly

The pursuit of pleasure is often as dangerous to life as the pursuit of "the bubble reputation even at the cannon's mouth." Late in the afternoon, the breathing of a vitiated atmosphere, rich foods, and irregular rest, must result in a depleted vitality. There is a feeling of languor, the appetite fails, sleep does not refresh, life loses its interest, and nervousness or hysteria may make life miserable.

The preservation of the healthful tone of the body depends chiefly on keeping the blood pure, and the stomach and other organs of digestion and nutrition in a condition of health. When any of the above mentioned symptoms appear the timely use of Dr. Pierce's Golden Medical Discovery will restore the body to a healthy equipoise. It purifies the blood, nourishes the nerves, and restores the deranged stomach and its allied organs to a condition of sound health.

There is no alcohol, whisky or other stimulant contained in "Golden Medical Discovery."

"I was troubled with very frequent headaches often accompanied by severe vomiting," writes Miss Mary Bell Sumner, of San Diego, Duval Co., Texas. "Bowels were irregular and my stomach and liver seemed continually out of order. Often I could eat almost nothing for twenty-four hours at a time. I was entirely unfit for work, and my whole system run down. I was advised to try Dr. Pierce's Golden Medical Discovery, and did so with such extraordinary results that before finishing the third bottle I felt perfectly able to undertake the duties attending public school life. I must heartily advise those suffering with indigestion, and its attendant evils, to give this great medicine a fair trial."

Dr. Pierce's Pleasant Pellets cleanse and regulate the stomach, liver and bowels. They produce permanent benefit and do not react on the system. One is a gentle laxative.
